OIT #0992-88

18 OCT 1988

MEMORANDUM FOR: Director of Special Projects, DS&T

FROM: Edward J. Maloney
Director of Information Technology, DA

SUBJECT: Approval for Connection of Commercial PC and
Modem to Headquarters Secure Telephone System

REFERENCE: Your Memo (OSP-0135-88), dtd 30 Sep 88, Same Subject

STAT

Your request to connect a Tempest-approved IBM PC/AT and modem to the secure telephone line in your Xenon Program SCIF [   ] to pass data to NSA is approved. You must ensure that your PC and modem are operated in a secure, stand-alone mode, isolated from any other Agency computer system. You should also ensure that any demountable magnetic media you use in the PC is handled so that there is no chance of your passing unintended Agency data to NSA. Please call OIT's Technical Security Staff on [   ] to coordinate an installation site survey.

30 September 1988

MEMORANDUM FOR: Director of Information Technology, DA

FROM: Gary W. Goodrich
                  Director of Special Projects, DS&T

SUBJECT: Approval for Connection of Commercial PC and Modem
                  to Headquarters Secure Telephone System (U)

     1.   Your approval is requested for the connection of an IBM AT personal computer and a telephone modem to a secure phone line in Xenon Program's SCIF facility in [ ] (U)

     2.   The connection will be utilized to pass data collected from a sensitive compartmented field installation to a SCIF in the National Security Agency (NSA) by way of the NSA grey phone system. The TEMPEST version computer, modem, and all required transfer software will be supplied by NSA. (U)

     3.   Installation is planned on or before 1 November 1988. If any further information is required, please contact [ ] of my technical staff at [ ] (U)
